

Supporting our communities

Our Community Grant Panels are looking to support local groups, however small, in areas where we're completing major works and investment schemes, or areas where we may have caused disruption.

If you run a community group or you're involved in an initiative in one of these areas, you may be eligible to apply for a community grant.

Your application will be assessed by a panel of Southern Water and local community representatives.

Applications which focus on one of the following areas will be particularly welcome:

- Education and opportunities
- Environment
- A healthy lifestyle

For more information about where grants are available and to access the application form, please visit:
southernwater.co.uk/communitygrants

Please note, we do not support requests from individuals and will only consider applications from registered charities or verifiable community groups in the designated areas. The maximum grant is £1,000 and the decision of the panel is final. There is a limited allocation and once this limit is reached the grant scheme will be closed. Any grants awarded may need to be spent within a specific time frame.
